Peter,

Your calculation looks good, SITLA concurs with the bond amount.

Hi Jerry,

Here's my proposed new bond amount for the Fossil Lease 26068-A Mine (ML 26068-A). Given the current disturbance (see attached map), I propose that the reclamation bond amount (not including the unbonded "Future Mining" areas) is:

1st acre	\$8,000	
~2 additional active acres	\$10,000	(2 acres x \$5,000/acre)
~3 regraded/flat acres	\$3,000	(3 acres x \$1,000/acre)
TOTAL	\$21,000	

This assumes that any of the small existing structures (canopy and small wooden shack) could easily be demolished and buried in the nearby pit without additional bond, if needed.

Do you concur? Let me know if you have questions.

Peter
